

KaySpell™

Turn your home computer into a patient, personal tutor !

- ▶ Kayspell offers a whole new way to teach spelling, vocabulary, or just about anything word related !
- ▶ This great little program is totally authorable - useful for *any age or grade level* !
- ▶ Allows you to focus on specific words and spellings that you want to practice !
- ▶ Custom word lists are made from a simple text file.
- ▶ Keeps track of quiz results for all word lists...and automatically compiles a "HOTLIST" of any difficulties encountered. Allows the student to focus on problem areas in order to gain 100% confidence.

Try It Today ! Only \$29

Free Trial Version And CD-ROM Available From www.greatlittleprograms.com

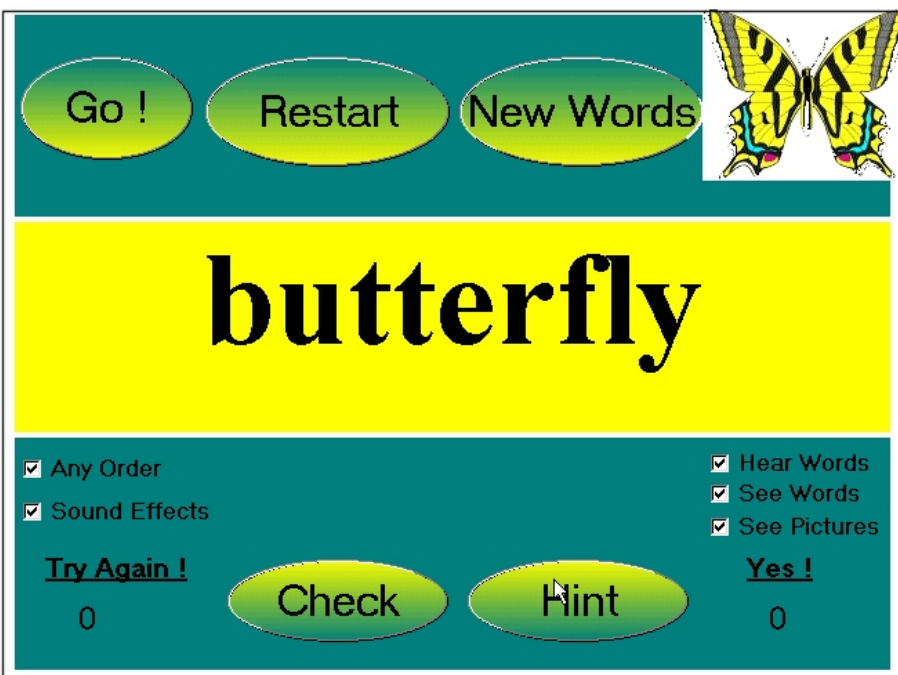

This program has been proven to help build confidence by offering the student the opportunity to take and retake any spelling quiz as often as needed.

In addition to the unique adjustable flashcard feature, with Kayspell you can also add *voice dictation and pictures* to your spelling quiz.

Down-to-earth functionality makes this software an effective, efficient, easy-to-use program.

Words of encouragement and other sounds can be heard throughout the program.

Quickly create your own personal database of words as the program grows with you !

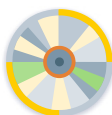

Site Licenses And Lab Packs Now Available !

"Our College has purchased Kayspell for use in our ESL labs, and the initial reactions to it from our faculty have been very favourable. We are impressed with its easy-to-use interface and its straight forward authoring capabilities." (Paul Biossonnault, Vancouver Community College)

Software Minimum System Requirements

Windows® 95/98/ME/NT/XP, Pentium™, 32MB Ram, Soundcard, Microphone (optional), Speakers.
